

Our Trips for autumn 2026

With spring approaching we thought to remind you of our offerings later in the year. In September we are in Italy running the **Naples & Sorrento** and our new **Ischia & Capri** trips. October will be spent in exotic **Morocco**, with our surprisingly different **Northern** and **Southern** itineraries back to back. The Southern trip now takes us deeper into the fascinating Draa Valley and to a remote part of Morocco's Western Sahara. In late November we are offering our **Classic Japan** itinerary, a comprehensive sample of what Honshu has to offer, with excellent accommodation and food. Finally, in mid December we are proposing **Wonders of Central India**, taking in the likes of Ajanta and Ellora as well as Sanchi stupa and Bhimbetka rock shelters. Please do click on the itineraries below to have a look at our 'Day to Day' activities.
